1. Workshop TIRANA January 2009

RWR/RSA Consultant: WYG – TRADEMCO – VIENNA CONSULT – TRL

Introduction

- GDRTS holds the status of juridical body, centred in Tirana and distributed in 12 Regional Directorates, created specially on Prefectures basis and depending from the Ministry of Public Affairs, Transport and Telecommunication.

Introduction

GDRTS performs these services:

- ✓ Vehicle registration and license plates.
- ✓ Annual and periodic vehicle technical control.
- ✓ Driver licenses.
- ✓ Auto school licenses and instructor licenses.

Information on street motor vehicles driving license

- ✓ **Requirements for driving vehicles .**
- ✓ **Driving license for driving motor vehicles and auto vehicles.**
- ✓ **Driving license exam.**
- ✓ **Auto-schools.**
- ✓ **Vehicle driving license validity terms and confirmation.**
- ✓ **Security elements included in the driving license (digital).**
- ✓ **National register of driving license.**

Requirements for driving vehicles

Whoever drives vehicles, must fulfil the physical and psychical requirements and must get the age of:

- **Sixteen** years old for driving cycle-motors with cylinders up to 50 cc.
- **Eighteen** years old for driving motor vehicles, which driving needs category A and B driving license.

Whoever drives motor vehicles must not be over the age of:

- **Sixty-five** years old to drive motor vehicles for transportation of goods.
- **Sixty** years old to drive buses, trucks, trailers, semi-trailers and other joints, assigned for passenger transportation.

Driving license for driving motor vehicles and auto vehicles

The driving licenses are divided according to the vehicles driving categories and abilities, defined for each of the following categories:

- A . Calibre motor-vehicles without cargo up to 400 kg.
- B . Motor-vehicles, excluding motor-cycles, and auto-vehicles with general weight not heavier than 3.50 ton and with not more than 8 seats.
- C . Auto-vehicles with full cargo general weight, heavier than 3.50 ton.
- D . Buses and other auto-vehicles used for passenger transportation, which have more than 8 seats .
- E . Auto-vehicles, which driving needs B, C and D categories driving licenses, for which the vehicle driver must be trained, when drawing a cargo, semi-trailers and joints used for passenger transportation.

Driving license exam

- The vehicle driving license can be issued after the trial of the theoretical knowledge control and after the trial of the driving and behaviour abilities verification.
- Theoretical knowledge control trial is given after the conclusion of the theoretical programme, according to the driving licence category. After the positive passing of the theoretical knowledge trial, the candidate is issued an authorisation for executing vehicle driving.

The candidate's authorisation is valid up to twelve months from the issuing date and within this term he has the right to undergo trial up to five times.

Auto-schools

- Auto-schools are subject of licensing, administrative and technical supervising by the General Directorate of Road Transport Services structures.
- The theoretical and practical preparation programme is done in accordance to the Council Directive 91/439/EEC of 29 July 1991 on driving licenses.
- The candidates' preparation terms for vehicle drivers are:

Classes and the necessary terms for vehicle driving license theoretical knowledge preparation in auto-schools are as follows:
