### ***RCC priorities for 2014-2016***

*Contribute to the development of sustainable and integrated transport in the region:*

- ***Strengthen air traffic cooperation in the region:*** Based on the Airspace Feasibility Study, which intends to provide a more comprehensive picture on the development of air transport sector, supporting the economic growth in the region, the RCC will continue to coordinate efforts in this direction.
- ***Promote an integrated approach towards the development of road transport:*** The RCC will identify and address gaps for more efficient planning, designing and implementation of road transport projects in SEE.
- ***Political support to railway sector development in SEE:*** The RCC will provide an adequate environment for the promotion of a regional approach to address and overcome the current challenges in this field. And, thus aligning the activities with the SEE 2020 framework by giving priority to more environmentally friendly modes of transport such as rail.
