

Albanian Railways S.A.

21 th RWWG meeting for railways and interoperability in Belgrade 9-10 October 2014

Dear Sirs,

Since our last recent RWWG meeting for railways and interoperability on May 2014, in 6th monthly analysis HSH has had several slight regulatory changes.

- It is ongoing the work for new rail code in Albania to be approximated to EU acquis with our ambition to might present our new draft-code to the Albanian Parliament within year 2014.
- It is ongoing the negotiation process for Durres-Tirana project and feasibility study on entire railway networking HSH
- It is ongoing the technical assistance for designing the new regulatory bodies in rail sector in Albania as per requirements of EU directives
- The freight railway transport has been working in continuance in good rhythms especially with renovation of railway connection in Port of Durres. The freight business unit has been presenting the transport of 250 thousand of goods being forwarded by rail until the 3rd trimester 2014

Thank you,

HSH S.A.
